

Amos Eaton
Dec. 15. 1830

Professor of Botany -
author of several works on
Natural History -

St. Louis

Director of the
Academy of Science -

Y^r L^{ty}

Mr. Little,

There seems to be some
carelessness among publishers of the
N. Haven & N. York Journals. Mr.
Parker of Troy advised me the
1st No. of Vol. 17 of N. Haven Jour-
nal, as regular agent. Therefore
I send this book.

As to N. York Journal, the fol-
lowing numbers were never sent
to me. I told this to a collecting
agent, and refused to pay any
more until they were sent.
By the way, if the publishers could
hire a boy of common sense to
direct them about marking the
numbers, so that common folk,
could understand them, it would be
an improvement.

[See next page]

Numbers of *Min. & Phys.* journal
of N. York, which have not been sent.
As there is no regularity in numbering
I express them by months.

1826 = for April, May, & June, waiting

1827 = for January, Feb. & March.

1828 = for April, May & June.

1829 = for January, Feb. & March.

These 4 numbers must be sent
before I feel bound to pay any thing
more; and I have refused, till the
collectors to receive these broken
sets; though they be here unpaid
to be returned on demand. Perhaps

there are better accommodated, but
I never receive their work in any
order. I have several times sent
a forward number, and several
months afterwards received the
omitted one.

I will pay you the arrears
for *Silliman's Journal*, the

first time I go to Albany. If
you have the 1st No. of *Silliman's*
Chemistry, please to send it to me.
I have lost your bill. Please to
send with *Silliman's Chemistry*
a bill of all I shall owe you
including the *Chemistry*, leaving
out the *N. York Journal*, as I
may send the money, should
I delay going to Albany.

Yours
J. Gray.

Dec. 15. 1829.

Amos Eaton.

"1828 - April May & June" - if No. 26.
sent to Adancourt Aug. 1. 1828.
- was published the last of July

"1829 - Jan. Feb. & March" - if No. 29.
sent by Wallbridge's stage, June 30.
this No. was not published till June 1829.

EATON (Amos). Savant américain. 1776-1842.- L.A.S. en anglais à M. Little.

15 décembre 1829. 3 pp. pet. in-4.

L'abbaye - 68

Il fait une réclamation à propos de l'irrégularité des livraisons des périodiques auxquels il est abonné. Il cite les numéros manquants et refuse de régler ses comptes tant qu'il ne les aura pas reçus. Il demande qu'on lui adresse le premier numéro de la "Chimie" de Sillimann
